

Magnetic Mounting System

Magnetic bracket for QuSpot, QuOmni, QuCube and QuWave.

Robust Magnetic Mount Bracket made completely from A4 / AISI316 stainless steel, known for exceptional corrosion resistance. Strong ferrite magnets in a steel housing with additional rubber cover for anti-scratch. Nominal attraction force of 72N per magnet (4x72N in total).

It can be used to be mounted on a flat, magnetic surface, perfect for transportation, marine and temporary installations.

Fully compatible with QuSpot, QuOmni, QuCube and QuWave antennas and enclosures.

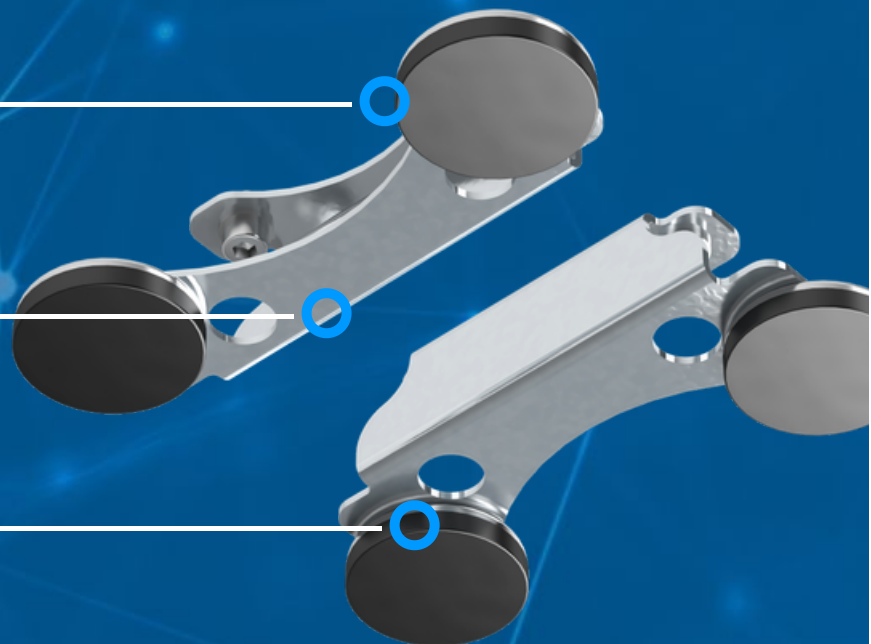

FITS ALL QUSPOT, QUOMNI, QUCUBE
AND QUWAVE ANTENNAS

MADE COMPLETELY FROM A4 /
AISI316 STAINLESS STEEL

MADE IN POLAND

MECHANICAL SPECIFICATION

MATERIAL	A4 / AISI316 stainless steel
NOMINAL HOLDING FORCE (N)	72 (per magnet)
