

QuPanel 700MHz HP MIMO 4x4

Directional High Power 700MHz antenna for Teltonika RUTX50.

QuPanel 700MHz directional MIMO 4x4 high gain antenna is predicted for 4G LTE high categories from cat 5 up to cat 19. The antenna improves the signal in rural/suburban and locations where the mobile signal is weak. That antenna is predicted to be installed on the buildings (on the pole or on the wall). The antenna is optimized to deliver extraordinary performance of **7dBi** in 694MHz-960MHz range, including **Band 28 (700MHz)**. It's designed to have a Teltonika RUTX50 router installed inside.
